

PRESS RELEASE

Tucson, AZ (February 6, 2013) At a special dinner held during the 2013 Tucson Gem Show, Jewelry Television (JTV) presented Bear and Cara Williams of Stone Group Laboratories, LLC, of Jefferson City, Missouri, the **2012 Lapidary Legend – Lifetime Achievement**

award. Stone Group Laboratories, LLC, was chosen for its dedication, integrity, knowledge, and expertise in providing accurate identification for proper gemstone disclosures in order to assist JTV in its mission “to open the world of jewelry and gemstones to everyone.”

Charles A Wagner III, Vice Chairman & Legal Counsel of JTV noted that SGL has “been instrumental in the establishment and implementation of our disclosures and regulatory compliance program, which are generally acknowledged as the best in the industry.” F. Robert Hall, Chairman and Co-Founder of JTV noted SGL’s “contributions to the science of gemology have been immense.”

Stone Group Laboratories, LLC, is an independent gemological testing and consulting lab that uses advanced spectroscopy for the identification of gemstones and treatments. Bear and Cara Williams are both Fellows of the Gemmological Association of Great Britain and are strong advocates for education and disclosure.
